POWERFUL AND FULL OF PRESENCE

PREMIERE LUXURY

In line with its longstanding reputation for excellence, the Nissan Elgrand imparts a strong luxury presence, a welcoming sense of hospitality, and comfort for all who step inside. The interior offers a wealth of amenities designed specifically for passenger comfort, alongside powerful technology and safety features that round out the all-encompassing excellence you experience with every drive.

UNCOMMON ELEGANCE

DISTINGUISHED STYLING

The low, wide body emphasises the stability and poise of the Nissan Elgrand. Dynamic lines flow from the front and lead all the way down the sides, highlighting its powerful profile. Blacked-out window pillars, rear combination taillights, and polished aluminum-alloy wheels complete the truly original look.

A FAMILIAR FACE

The bold chrome grille speaks of the true intentions of the Nissan Elgrand. A hallmark of the original model, it makes every entrance a statement of distinguished luxury and an affair to remember.

THE END ALL

Housed in an expansive clear lens, the rear combination taillights are a key styling element that will surely get noticed. The bright LED taillights will easily be seen and admired by all who follow.

TAKE A TRIP INSIDE

STYLISH COMFORT

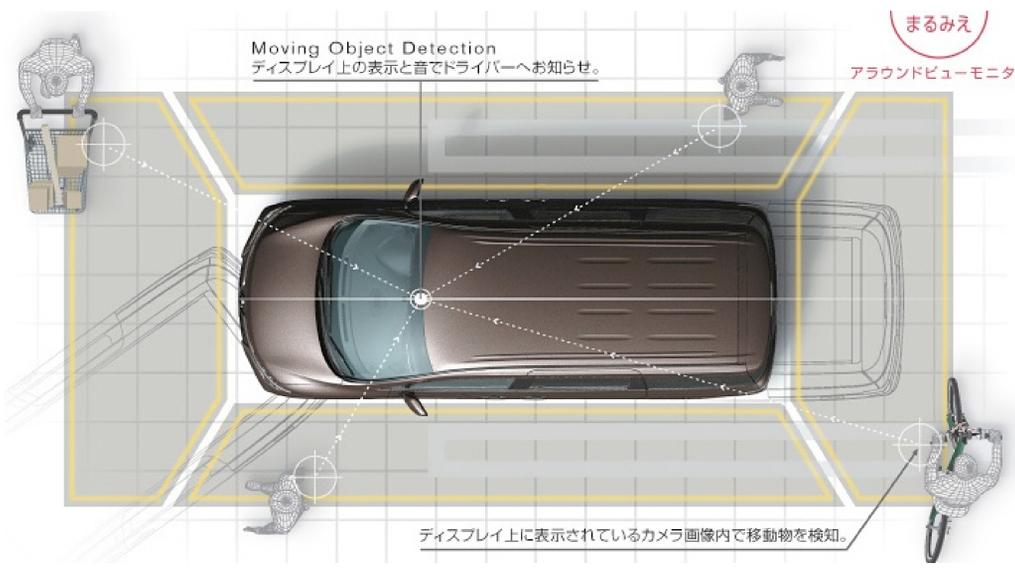

The high-quality interior space focuses on enveloping driver and passengers in supreme comfort. The highly functional instrument panel adds a luxurious touch, wrapped from side-to-side with a gradient wood-tone panel. Cool, blue illumination gives the interior a modern look and exciting feel, while the indulgent seats allow all occupants to experience the highest levels of comfort.

SEEING IN EVERY DIRECTION

TOTAL PARKING AWARENESS

The Nissan Elgrand strives to make parking as safe and accurate as possible. Overhead views from the Around View Monitor combine with parking guidance systems that help you manoeuvre into even the trickiest parking spaces with relative ease. A bevy of cameras and sensors will help make sure you get it right the first time.

NEXT LEVEL PARKING

Grab that parking space! Around View Monitor gives you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views. Just shift into Reverse, and the RearView Monitor displays what's directly behind you. And if the system detects something moving by the rear of the vehicle, it gives a visual and audible alert.

IT'S THE PERFECT FIT

Slot into a parking space the first time as the Parking Guide System utilises voice guidance, simulated steering direction indicators and reverse positioning shown on the in-dash display. Parking has never been easier or more helpful.

NISSAN ELGRAND

THE NEW FACE OF LUXURY

PROJECTING ELEGANCE

The arrival of the Nissan Elgrand is undeniable. The sparkling blending of signature two-stage head lamps and a bold front grille echo the presence of the original Nissan Elgrand. Three-dimensional body side panel with dynamic lines flow from the front as distinct, wraparound rear windows impart a powerful profile.

360°

SAPPHIRE BLACK EXTERIOR COLOUR

A BOLD STATEMENT

The powerful, chrome front grille makes a visual statement of both strength and refinement. It's a distinct look that's unmistakably grand and let's onlookers know that the Nissan Elgrand abounds with dynamism and luxury.

DIVIDE AND CONQUER

The signature two-state head lamps integrate with the aerodynamic profile to become a vital part of the dramatic overall design. High-efficiency LED head lamps create a light pattern that replicates natural daylight. The signature LED Daytime Running Lights dramatically arch around the head lamps and provide a low-intensity, but highly visible light.

SHINE ON

Everybody needs a little sparkle. And you'll get it as the 18" aluminium-alloy wheels with a chrome-coated finish complete the luxurious and appealing appearance of the Nissan Elgrand.

VISUAL LEVITATION

The unique design of the wrap-around rear windows are accented by a beautiful chrome molding. They give the visual impression that the roof is floating gracefully above the rear of the vehicle.

FORM AND FUNCTION

The horizontally etched clear lens is precisely integrated into the rear bodywork to highlight width and presence. Housed inside the lens are brilliant LED taillights that are long lasting and illuminate in just a fraction of a second.

MODERN LUXURY

SO MUCH MORE THAN COMFORT

Get ready for a new definition of luxurious and comfortable motor-ing. This interior is the perfect place to relax and invigorate your senses before, during, and after your journey.

YOU MAY NEVER WANT TO LEAVE

Luxuriate in the stylish grandeur of the high quality interior space of the Nissan Elgrand and let the regal seats cradle you and your passengers in supreme comfort. Using the latest technology, a 3-D plush seat design offers support for the entire body, while helping to maintain a relaxed and stress-free posture. Add to that the latest technology and convenience features and you may have just found your new secret getaway.

SPACE TO SPARE

Whether in the 7-passenger or 8-passenger configuration, everyone will be invited to stretch out and get comfortable. Flexible seating arrangement allow you to customise the interior for maximum enjoyment.

TAKING IT TO THE TOP

This latest iteration of the Nissan Elgrand pushes headroom to the outer limits. With an extra 20 mm for the front passengers and 25 mm of clearance in the rear, it's a guarantee that even the tallest will have room to sit up straight.

THREE TIMES THE COMFORT

Comfortable Captain Seats in the 2nd-row of the 7-passenger model will wow passengers with the winning combination of three technologies: seat cushion-integrated leg rests, articulated seatbacks, and three-layered cushion pads. Get ready to feel like royalty.

HOLISTIC COMFORT

With the Captain Seat's all-in-one seat cushion and leg rest design, the body is supported as a whole, helping maintain a posture that is relaxed and stress-free. The seat cushion-integrated leg rest supports the lower legs over a large area for optimum comfort on short or long trips.

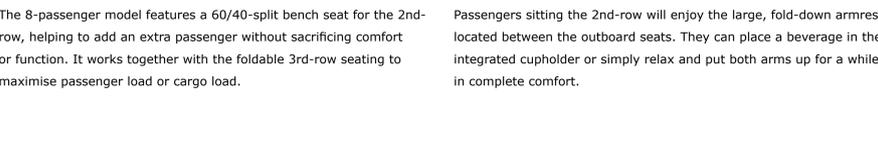

THE MORE THE MERRIER

The 8-passenger model features a 60/40-split bench seat for the 2nd-row, helping to add an extra passenger without sacrificing comfort or function. It works together with the foldable 3rd-row seating to maximise passenger load or cargo load.

LEAN ON ME

Passengers sitting the 2nd-row will enjoy the large, fold-down armrest located between the outboard seats. They can place a beverage in the integrated cupholder or simply relax and put both arms up for a while in complete comfort.

STAY WARM AND COZY

Quick Comfort Heated Seats, available in the front- and 2nd-row, features the world's first seat heating technology. They provides heating zones for various parts of the body, with modes adjustable to every situation. In the beginning, the system heats the thigh and hip areas where people feel warmth more, then it heats the lower back and the thigh area to maintain a comfortable warmth.

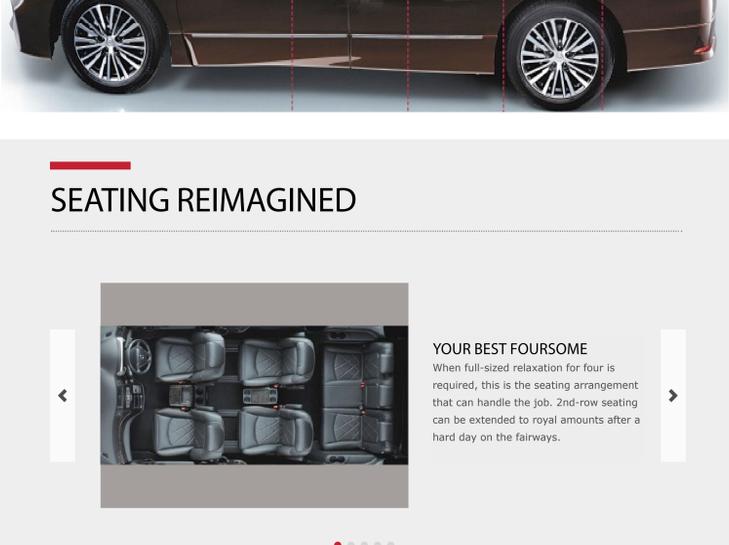

NISSAN ELGRAND FEATURES

TECHNOLOGY, CONVENIENCE AND SAFETY TOGETHER.

- SEATING/CARGO
- COMFORT
- TECHNOLOGY
- PARKING AIDS
- SAFETY

FLEXIBLE LUXURY POSITIONED TO PERFORM

The Nissan Elgrand is offered in 7-passenger and 8-passenger models that both have a myriad of seating configurations and storage solutions. Reconfiguring the seats is easily accomplished and delivers an almost limitless arrangement to meet the demand of passengers and cargo.

SEATING REIMAGINED

YOUR BEST FOURSOME

When full-sized relaxation for four is required, this is the seating arrangement that can handle the job. 2nd-row seating can be extended to royal amounts after a hard day on the fairways.

SLIDE IT IN

Golf bags, strollers or coolers are easily accommodated by simply sliding the 3rd-row seats to the most forward position. Move the seating all the way back to maximise legroom when transporting a bunch of adults around town.

MAKE ROOM FOR MORE

Now you don't have any excuses to pick up that antique furniture. For extra-large items, the 3rd-row seats can be folded down to reveal a truly cavernous cargo space. When you're done, they simply flip back up and are ready to for passenger duty.

STORAGE SOLUTIONS

FRONT AND CENTRE

A great location to store your mobile phone or portable electronics is in the lower storage compartment of the centre stack. Keep your belonging out of the way, but easily within reach.

HIDE IT AWAY

Located in the floor behind the 3rd-row seating, the surprisingly deep storage compartment can hold many vehicle necessities that you might need to access in emergencies. Or use it as a great place to keep valuable possessions out of sight.

NISSAN ELGRAND COMFORT

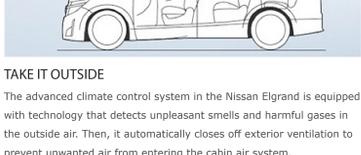

THREE TIMES THE COMFORT

Powerful yet quiet, the Tri-zone Climate Control system gives everyone a chance to dial in their preferred temperature whenever the weather turns warm or chilly. Vents located above and below the 2nd- and 3rd- row seats make sure air is effectively circulated throughout the cabin to keep all occupants comfortable and refreshed.

STAY WARM AND COZY

Quick Comfort Heated Seats, available in the front- and 2nd-row, features the world's first seat heating technology. They provides heating zones for various parts of the body, with modes adjustable to every situation. In the beginning, the system heats the thigh and hip areas where people feel warmth more, then it heats the lower back and the thigh area to maintain a comfortable warmth.

SHADES ARE JUST COOL

Keeping comfortable is so cool. Whether for privacy or protection from the sun's glare, the 2nd- and 3rd-row manual sunshades will help rear passengers control their light exposure whenever they choose.

KEEPING IT CLEAN

It's easy to appreciate the added benefit of having a Plasmacluster ionizer. It works to help remove or neutralise interior airborne contaminants and continually purify the cabin air.

TAKE IT OUTSIDE

The advanced climate control system the Nissan Elgrand is equipped with technology that detects unpleasant smells and harmful gases in the outside air. Then, it automatically closes off exterior ventilation to prevent unwanted air from entering the cabin air system.

TECHNOLOGY FOR THE PEOPLE LET THE PARTY BEGIN

It's not just about where you are going, but how you get there. Let it guide you swiftly and effortlessly to your favourite destinations. From a widescreen, high-definition display to the smooth acoustics of Bose® 5.1 Surround Sound system, you'll wish it always did. This theatre-quality entertainment system gives the ability to recreate high-quality concerts, blockbuster movies or sweet lullabies for your most discriminating passengers.

YOUR FEATURE PRESENTATION

It doesn't get much bigger or better than the electronically retractable 11" high-definition display. Enjoy the latest flicks on a widescreen that large enough to be easily viewed by 2nd- and 3rd- row passengers. It even has LED backlighting and auto brightness, so movies and shows can be viewed with equal clarity in daylight and nighttime conditions.

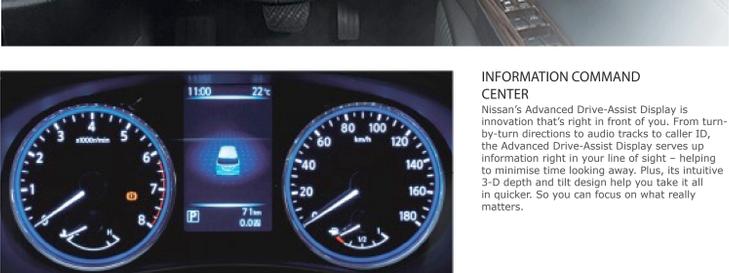

PERSONAL TRAVEL GUIDE

Get to where you need to go without missing a turn or getting lost. The easy-to-view touchscreen display lets you enter addresses and select Points of Interest with easy. Then, the full-featured Navigation System will quickly calculate the best route and guide you ever step of the way with vivid imagery and concise voice guidance.

PRACTICAL CONVENIENCE EASE INTO YOUR JOURNEY

Life can often be complicated and fast-paced, but that doesn't mean your travels have to be. The Nissan Elgrand offers convenience features that deliver access to everything you need with intuitive commands and one-touch simplicity, helping to get you through every day with limited hassles and helpful solutions.

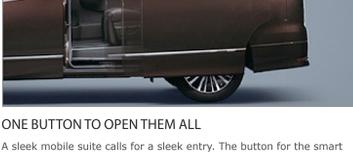

INFORMATION COMMAND CENTER

Nissan's Advanced Drive-Assist Display is innovation that's right in front of you. From turn-by-turn directions to audio tracks to caller ID, the Advanced Drive-Assist Display serves up information right in your line of sight – helping to minimise time looking away. Plus, its intuitive 3-D depth and tilt design help you take it all in quicker. So you can focus on what really matters.

THE KEY TO A QUICK GETAWAY

No more fumbling for keys. With the Nissan Intelligent Key, you can unlock the doors and open the rear hatch with the simple tap of a button—all while your keys stay tucked away in your pocket or purse.

ONE TOUCH TO OPEN THEM ALL

A sleek mobile suite calls for a sleek entry. The button for the smart One-Touch Auto Twin Sliding Doors unlocks the vehicle and opens both sliding doors, giving the term 'grand entry' a whole new meaning.

LOOKING FORWARD TO LOADING

So simply, you'll never want to be without it. The One-Touch Opening Rear Hatch can be activated at the rear or from the driver's seat. It opens and closes smoothly every time and feature pinch protection to help avoid injuring fingers or toes.

SEE WHAT CAN'T BE SEEN

Whether backing up, pulling forward or parallel parking, take command with the situational awareness offered by Around View Monitor with Moving Object Detection. Four cameras create a virtual 360° view and if the system detects something moving by the rear, it give visual and audible alerts. It's like having extra sensory perception behind the wheel.

BEFORE YOU START
When the vehicle is running and Park or Neutral are selected, the Moving Object Detection will sound an audible alert to indicate there is something moving near the front of the vehicle.

MOVING FORWARD
As Drive is engaged to pull forward, the system will show the direction of incoming objects in front and sound an audible alert. Perfect when visibility is blocked or limited on either side of the vehicle.

HEADING BACK
When Reverse is selected and you are preparing to back up, Moving Object Detection will display any detected objects moving toward the rear of the vehicle. There is even an audible alert as a second line of defense.

TARGET ACQUIRED THE SECRET TO PARALLEL PARKING

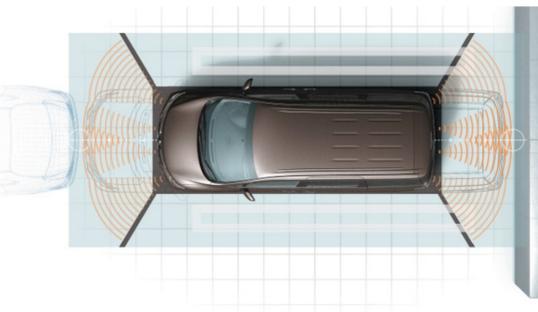

The Nissan Elgrand has a few more parking tricks up its sleeves. A clever Parking Guide system helps size up parallel parking spaces and gives you a top down view to line up the vehicle and slide smoothly and quickly into the space. No one will ever know how you got so good at parallel parking.

PICKING THE PERFECT SPOT
Relax and use the Around View Monitor functionality to help find and assess the properly sized parking spaces. Once you find a spot, simply adjust a small box on the display and place it directly over the desired parking spot to activate the Parking Guide system.

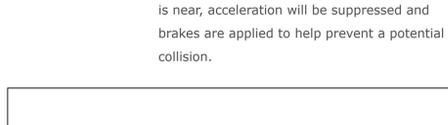

WIN THE PARKING GAME
After you've found and selected the target parking space, a clever outline shows you exactly where to position your vehicle to begin backing into the parking space, all while voice guidance helps avoiding any unnecessary bumps or scratches.

A SENSE OF SAFETY
The powerful combination of front and rear sonar sensors constantly monitor the surroundings and give visual and audible alerts of potential collisions during low speed driving. As an added precaution, if the Emergency Assist system detects strong or accidental application of the accelerator when an object is near, acceleration will be suppressed and brakes are applied to help prevent a potential collision.

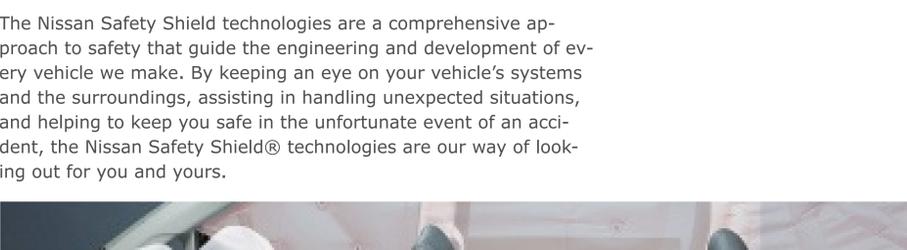

SEE THE FULL PICTURE
Easily take advantage of the 180° Wide View function of the front- and rear-facing cameras. They give you an extended view that can assist in negotiating visibly difficult intersections or reversing out of parking spots.

THE CHOICE IS CLEAR VISION
An additional feature of the Smart rearview mirror is the versatile switch function. By simply flipping a switch on the bottom of the mirror, the driver can select between the traditional rearview mirror system and the LCD display which offers an unobstructed rearward view devoid of typical obstructions like taller passengers or the vehicle's C-pillars.

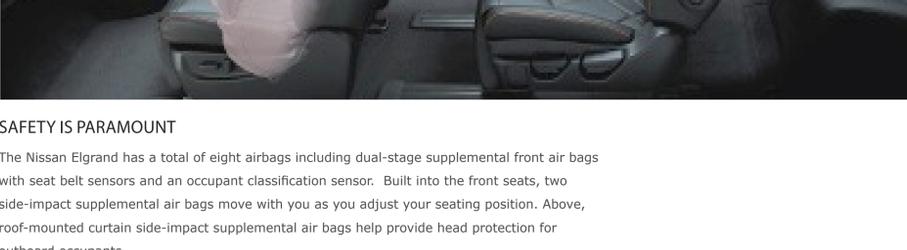

DESIGNED TO PROTECT NISSAN SAFETY SHIELD

The Nissan Safety Shield technologies are a comprehensive approach to safety that guide the engineering and development of every vehicle we make. By keeping an eye on your vehicle's systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident, the Nissan Safety Shield® technologies are our way of looking out for you and yours.

SAFETY IS PARAMOUNT
The Nissan Elgrand has a total of eight airbags including dual-stage supplemental front air bags with seat belt sensors and an occupant classification sensor. Built into the front seats, two side-impact supplemental air bags move with you as you adjust your seating position. Above, roof-mounted curtain side-impact supplemental air bags help provide protection for outboard occupants.

BRAKING FOR A NEW GENERATION
Intelligent Brake Assist continuously monitors and analyze your closing speed to the vehicle ahead of you, helping detect an imminent collision. It provides a warning to alert the driver as the vehicle moves toward impact. If the driver takes no action, the system automatically engages the brakes to help reduce collision speed and impact, helping to mitigate the consequences of the accident.

CONSTRUCTED FOR SAFETY
Nissan has optimised the multi-load pass structure, which absorbs and diffuses the energy of a front-end collision and helps to maintain the integrity of the passenger compartment, offering a high level of impact safety. The front body structure has also been engineered to absorb energy in key areas that help reduce pedestrian injury in the event of a pedestrian collision.

PROTECTION FROM BEHIND
Front-seat Active Head Restraints help reduce the chances of whiplash injuries to front-seat occupants by moving up and forward during certain rear-end collisions.

KEEPING CHILDREN SECURE
The ISOFIX/LATCH system (Lower Anchors and Tethers for Children) is another way Nissan is working to keep children safe. The system, located in multiple seating positions, lets you secure multiple child restraints without having to use seat belts or a locking clip.

PUT IT IN CRUISE
The Intelligent Cruise Control system helps to transform the reality of traffic by effortlessly managing your speed and maintaining a set distance to the car ahead. When traffic slows, the system will automatically slow your vehicle, then resume the set cruising speed when traffic clears.

SEE FURTHER
The Adaptive Front Lighting System adjust the head lamps illumination pattern based on vehicle speed, and cast a super-wide beam to enhance visibility, especially when cornering.

THE RIGHT AMOUNT OF PRESSURE
When your tyre pressure is low, the Tyre Pressure Monitoring System (TPMS) illuminates an icon on your dash to let you know. Through the driver information system you can even monitor individual tyres pressure to make sure all pressures are correct.

GO WHERE YOU WANT TO
Vehicle Dynamic Control helps you maintain your steered path. VDC, also known as stability control, monitors your steering and braking to help you maintain your steered path under certain conditions by reducing engine output and/or applying brake pressure to specific wheels.

STAY IN CONTROL
The Active Brake Limited Slip (ABLS) system senses wheelspin, then automatically applies the brakes to the spinning wheels and directs power to the wheels with the best traction to enhance confident and controlled handling in challenging driving conditions.

SEATING REIMAGINED

YOUR BEST FOURSOME

When full-sized relaxation for four is required, this is the seating arrangement that can handle the job. 2nd-row seating can be extended to royal amounts after a hard day on the fairways.

SEATING REIMAGINED

ALL ABOARD AND RELAXED

With the 3rd-row reclined and pushed all the way back, this configuration lets everyone get spread out and into maximum relaxation mode. Your passengers may never want to leave.

SEATING REIMAGINED

NO PARTICULAR PLACE TO GO

When the journey is done, or if it hasn't even started, the driver and front and rear passengers can all lean way back to just take a break while listen to some relaxing music.

SEATING REIMAGINED

ROAD TRIP

Time to hit the road. All of your luggage will fit neatly behind the slid-forward 3rd-row seats while the Nissan Elgrand still offers comfortable room for up to 7-passengers.

SEATING REIMAGINED

PEOPLE PLUS STUFF

Fold down the 3rd-row seats to carry large items for extended vacations or transporting your favourite gear around town. All with room for a support crew of four friends or family.

SEATING REIMAGINED

THE MOST CARGO SPACE

Vast is the only word to describe the space created by dropping down the 3rd-row seats and sliding forward the 2nd-row. If it's only one or two onboard and a lot of stuff, the solution is here.

STORAGE SOLUTIONS

FRONT AND CENTRE

A great location to store you mobile phone or portable electronics is in the lower storage compartment of the centre stack. Keep your belonging out of the way, but easily within reach.

STORAGE SOLUTIONS

A BIG PLACE

If you've got some larger items, perhaps several CD cases worth, look to place the in the lower front storage compartment. It's plenty big and can hold a variety of necessities or snacks.

STORAGE SOLUTIONS

HAVE A DRINK ON US

Beverages can be securely close-at-hand when placed in the front cup holders located beneath a small cover in the centre console tray. Drink up.

STORAGE SOLUTIONS

MAKE A CONNECTION

Located atop the front centre console is a small compartment designed for connecting or charging your mobile device. It has a deep well to hold the latest oversized smartphones and both a USB connection port and an auxiliary audio input.

STORAGE SOLUTIONS

TABLE FOR FOUR

2nd- and 3rd-row passengers will enjoy having their beverages close at hand in the 2nd-row side table. The table top is recessed to help stop items from falling off and covered in a beautiful woodgrain finish.

NISSAN ELGRAND PERFORMANCE

PERFORMANCE WITHOUT COMPROMISE

TELL ME ABOUT PETROL ENGINE

POWER PROPOSITION

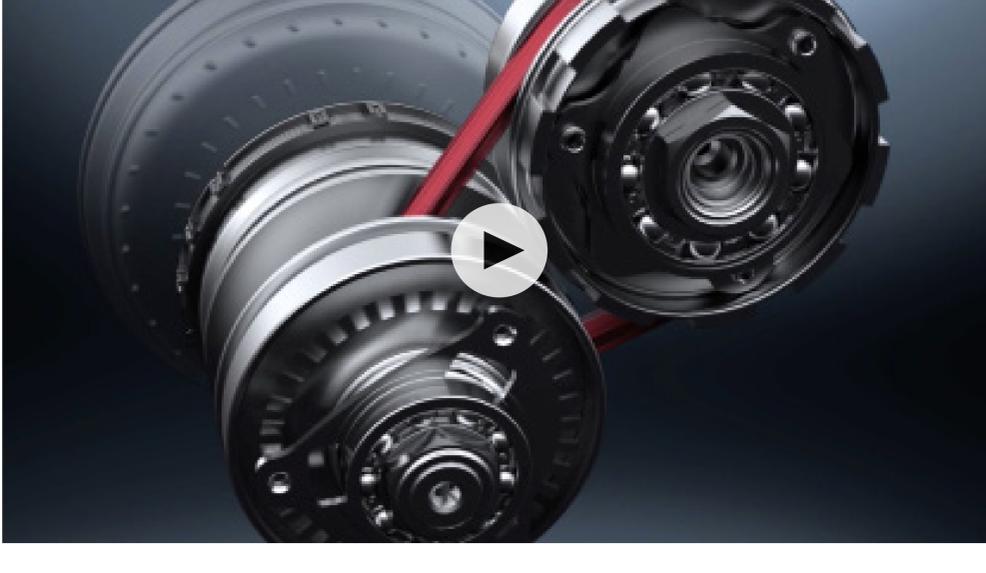

THE HEART OF THE ELGRAND

The Nissan Elgrand can be equipped with the legendary 3.5-litre VQ35DE engine, tuned to deliver a maximum output of 280PS and a stout 344 Nm of torque. The smooth power deliver and impressive performance make driving an exhilarating experience whether in the city or on the highway.

SEAMLESS ACCELERATION

THE POWER OF XTRONIC CVT

EFFICIENCY IS ON THE HORIZON

With the refined Xtronic CVT transmission motivating the Nissan Elgrand, smooth performance and seamless acceleration come without shift of gears. It can hold the engine at the ideal rpm for the maximum power delivery, providing a wave of power when you need it and running low rpm for quiet, efficient cruising when you don't.

POWER AND CONTROL

INTELLIGENT POWER DELIVERY

The All-Mode 4x4 system constantly monitors conditions and adjusts the balance of power between front and rear wheels for best traction. The driver can also select 4WD Lock Mode during challenging weather and road conditions. The system works proactively to help overcome less than ideal road conditions and generally enhances driving stability.

常時前輪駆動する経済的

DRIVE SMOOTHER

TAKE IT ECO

The Eco-Drive Assist System in the Nissan Elgrand is a technological suite that promotes fuel-efficient driving by coordinating function of driver input, transmission and even navigation systems. It optimises acceleration and speed changes to provide the lowest fuel consumption possible and synchronises with navigation information to better deliver engine braking based on road curvature and tollgate distances.

SMOOTH SAILING

LUXURIOUS DRIVING FEEL

The Nissan Elgrand is equipped with a sophisticated suspension system to provide superior driving stability and luxurious comfort. With a lowered centre of gravity and strong, but lightweight, suspension components, steering feel and cornering are enhanced while bumps and road imperfections are expertly minimised, offering one of the smoothest rides in town.

THE FOREFRONT OF HANDLING

Front struts reduce weight by using aluminum links and combining the rebound spring into the shock absorbers to hand high and low frequency undulations with ease. The low unsprung weight and clever design improves steering feel and allows a smaller turning radius.

COMFORTABLE AND CONTROLLED

Regardless of whether the Nissan Elgrand is full or passengers or cargo, the rear multi-link suspension, featuring ripple-control shock absorbers and rebound springs, assists in providing both superior driving stability and ride comfort.
